

# Tesoro Neo X Speed

# Get There Faster

A rugged, comfortable e-bike for high-speed commuting and transport.  
Built off-road tough to handle the worst the city can dish out.

# Tesoro Neo X Speed

- An addition to Tesoro Neo X line up, sharing the same performance experience, but with a new ingredient named Speed.
- You can say goodbye to the traffic jam: this tough & capable machine is the perfect mobility solution for urban transport and getaways.
- It's freedom, function and fitness all in one.

## Get There Faster

- The 28" wheels with big, grippy, fast tires and 100mm travel front-suspension fork absorbs bumps, making it easier to roll through the city and beyond.
- Premium & durable SmartForm C1 alloy frame with a ride-feel that could only come from Cannondale.
- MTB inspired riding position, reflective graphics on the frame, Supernova lights and integrated High-beam for more visibility.
- The parallelogram suspension seat post is designed to smooth out impacts and jolts from the road for the best of comfort.

## Bosch eBike System

- Bosch Performance Speed drive unit - 45 km/h to beat traffic and to go anywhere faster than ever.
- Bosch Powertube 625Wh battery - the largest, most powerful battery pack offered from Bosch for longer range for your most adventurous adventures.
- Double the range and double the adventure, the Tesoro Neo X frame comes pre-wired and ready for the installation of a second battery
