

# PUNKS

Near Ear  
Crystal Clear  
Audio & Comms  
& Spatial Awareness

Raise that fist and scream “hell yeah!”

It’s time for a totally amplified ride, with music pumping you up, hearing your friends’ joy, dropping ‘whoops’ and ‘yips’, all while maintaining perfect situational awareness.

That’s what you get with the Punks. They’re slim, stylish, truly wireless speakers that offer Hi-Fi near-ear audio and double as the clearest unlimited range group comms system you have ever used. Want to chat a little? Use Push-to-Talk. Feel like miles of competitive trash talking? Better get your group on Party Mode. Either way you have all the controls at your fingertips so you can keep that Strava/Trailforks machine safely tucked away.
